From: 1BZ DZIT DAO LLC

Re: BizNode Node Operator Partnership

Date: [Date]

Hey [Name],

We're building 1BZ.BIZ -- a decentralized business services network powered by local AI. No cloud dependency, no API bills, no data leaving your machine. We're looking for node operators who want to earn DZIT while helping us scale the network. This isn't a "stake and pray" situation. You run real infrastructure, you earn real revenue. Here's the full picture.

WHAT IS BIZNODE?

BizNode is a Telegram-native AI business agent running on local Ollama LLMs. It provides 10+ service nodes to freelancers, small businesses, DAO operators, and chartered accountants -- including:

- Legal Node -- contract generation & review
- Notary Node -- document authentication
- SmartPDF Node -- intelligent document processing
- OTP Node -- verification services
- Payments Node -- invoicing & settlement
- Downloads Node -- secure file distribution
- CopyGuard Node -- content protection

All transactions settle on Polygon via escrow smart contracts. Users pay in DZIT tokens.

WHY RUN A NODE?

Benefit	Details
Direct Revenue	Earn DZIT for every service request your node processes
No Cloud Costs	Ollama runs locally -- your only cost is electricity and hardwar..
Governance Rights	Node operators receive 1BZ governance tokens proportional to upt..
Early Mover Advantage	Network launching with 2-3 initial systems -- early operators ca..
Privacy Differentiator	"Data never leaves your machine" is a selling point you can mark..

REVENUE MODEL

How you earn DZIT: 1. Per-transaction fee split -- Every service request routed to your node earns you 70% of the DZIT fee. The network retains 30% for protocol treasury and development. 2. Uptime bonus -- Nodes maintaining 95%+ monthly uptime receive a 10% DZIT bonus on their monthly earnings. 3. Volume tiers:

Monthly Transactions	Your Share	Uptime Bonus
0-500	70% of DZIT fees	10% bonus at 95%+ uptime
501-2,000	75% of DZIT fees	10% bonus at 95%+ uptime
2,001-10,000	80% of DZIT fees	15% bonus at 95%+ uptime
10,000+	85% of DZIT fees	15% bonus at 95%+ uptime

4. Settlement currency: Earnings accumulate in DZIT. You can hold, convert to BZeUSD for stable settlement, or provide liquidity via E2P tokens. Illustrative Projections (Conservative):

Scenario	Avg. Transactions/M..	Avg. DZIT per Tx	Monthly DZIT Earned	Notes
Month 1-3 (Bootstrap)	200	5 DZIT	~700 DZIT	Network ramping, ea..
Month 4-6 (Growth)	1,000	5 DZIT	~3,750 DZIT	Word of mouth + cro..
Month 7-12 (Traction)	3,000	5 DZIT	~12,750 DZIT	Multiple service no..

These are estimates, not guarantees. Actual earnings depend on network adoption and demand.

TECHNICAL REQUIREMENTS

Minimum Hardware (per node):

Component	Requirement
CPU	4+ cores (8 recommended)
RAM	16 GB minimum (32 GB recommended for larger models)
Storage	100 GB SSD free space
Network	Stable broadband, 10 Mbps+ upload
OS	Linux (Ubuntu 22.04+), Windows 10/11, or macOS 12+
Systems	2-3 machines for redundancy and load balancing

Software Stack:

You do NOT need:

- Cloud hosting accounts
- API keys for OpenAI/Anthropic/etc.

TERM & EXIT

- Initial term: 6 months (renewable automatically)

NEXT STEPS

1. Reply to this message with your hardware specs and availability 2. We schedule a 30-minute onboarding call 3. You're live within 2 weeks We're building this network one operator at a time. PROPOSAL 2: TELEGRAM CHANNEL CROSS-PROMOTION PARTNERSHIP

Use when: Approaching admins of complementary Telegram channels/groups for mutual growth.

To: [Channel Admin Name / @handle]

From: 1BZ DZIT DAO LLC

Re: Cross-Promotion Partnership -- [Their Channel Name] x 1BZ.BIZ

Date: [Date]

Hey [Name],

I run the 1BZ.BIZ Telegram channel -- we're a Wyoming DAO building an AI-powered business agent called BizNode that runs directly on Telegram. We've got [X] members and growing. I've been following [Their Channel Name] and I think our audiences overlap in a way that makes cross-promo a no-brainer. Your community is into [Web3 / AI tools / freelancing / small business / crypto -- pick what fits], and we're building the toolkit they actually need. Here's a simple partnership proposal -- no contracts, no BS.

WHAT WE'RE PROPOSING

Mutual Promotion (Equal Exchange):

Action	You Do	We Do
Pinned/Featured Post	Feature 1BZ.BIZ in a pinned pos..	Feature [Their Channel] in a pinned post o..
Bot Demo	Share a short demo of BizNode i..	Create a custom demo tailored to your audi..
Monthly Shoutout	Mention 1BZ in one post per mon..	Mention [Their Channel] in one post per mo..
Joint AMA	Co-host one AMA session (you mo..	Same

CONTENT COLLABORATION IDEAS

We're happy to go deeper if the basic cross-promo works: 1. Co-created content -- We write a "How [Their Audience] Can Use AI for [Relevant Task]" post. You distribute it. Dual branding. 2. Exclusive offers -- Your members get a free DZIT starter pack (worth \$10) when they join through your referral link. You get affiliate DZIT on every conversion. 3. Guest expert sessions -- Your admin/experts join our channel for a guest post or voice chat. We do the same in yours. 4. Bot integration -- If your channel covers AI/Web3, we can do a live BizNode demo in your group -- generate a business plan, invoice, or contract in real-time. High engagement content, zero effort from you.

WHAT MAKES 1BZ WORTH PROMOTING TO YOUR AUDIENCE

- It's live -- not a whitepaper or a roadmap. BizNode works today.
 - It's on Telegram -- your members don't need to leave the platform to try it.
 - It's private -- local Ollama LLM means no data goes to OpenAI or any cloud. This matters more every month.
 - It's cheap -- \$30/year. Your members won't feel burned.
 - It's Web3-native -- Polygon chain, escrow contracts, governance tokens. Your crypto-savvy audience gets it.
-

TERMS

- Duration: 30-day trial, renewable by mutual agreement
 - Cost: Zero. This is an equal exchange.
 - Exclusivity: None. You can partner with anyone else.
 - Exit: Either party can stop at any time, no hard feelings.
 - Tracking: We'll provide a unique referral link so you can see how many of your members convert. We share the stats transparently.
-

WHAT WE NEED FROM YOU

1. Confirmation you're interested 2. Your preferred post format (text, image, video) and any content guidelines 3. A date for the first pinned post or shoutout That's it. No legal docs, no token swaps, no complicated structures. Just two builders helping each other grow. -- [Founder Name], 1BZ.BIZ Telegram: [@handle]

PROPOSAL 3: SERVICE INTEGRATION PARTNERSHIP

Use when: Approaching developers, SaaS builders, or businesses who could add their product/service as a new node on the BizNode network.

Re: Service Node Integration -- Add [Their Service] to the BizNode Network

Date: [Date]

Hey [Name],

We're building 1BZ.BIZ -- a decentralized network of AI-powered service nodes accessible through a single Telegram agent. Think of it as an app store, but for business services, running on Telegram, settled on Polygon, powered by local AI. We currently have 10+ service nodes (legal, notary, SmartPDF, payments, OTP, CopyGuard, etc.) and we're looking to expand. Your [product/service] caught our attention because [specific reason -- e.g., "your translation API would be a perfect fit for our international freelancer user base"]. This proposal outlines how you can plug your service into BizNode as a new node and earn DZIT on every transaction.

HOW THE BIZNODE NETWORK WORKS

1. User requests a service via the BizNode Telegram bot (e.g., "translate this contract to Spanish")
2. BizNode agent routes the request to the appropriate service node
3. Your node processes the request using your service/API/logic
4. Escrow releases DZIT to you upon successful delivery
5. User pays in DZIT -- they purchased DZIT packages (\$10-\$10,000) upfront

REVENUE MODEL FOR SERVICE NODE PROVIDERS

Component	Your Share	Network Share
Per-transaction DZIT fee	65%	35% (protocol treasury + node operator hos..
Premium service tier (you..	70%	30%
Subscription model (if ap..	75%	25%

You set the DZIT price per service call. We recommend pricing between 2-50 DZIT per transaction depending on complexity, but you have full control. Example revenue projection:

Your Service	DZIT per Call	Calls/Month	Monthly DZIT (Your Share)
Translation (basic)	5 DZIT	500	1,625 DZIT
Translation (certified)	25 DZIT	100	1,625 DZIT
Custom report generation	15 DZIT	300	2,925 DZIT
API integration service	50 DZIT	50	1,625 DZIT

TECHNICAL INTEGRATION OVERVIEW

What you build: 1. Service endpoint -- REST API or webhook that BizNode can call with structured requests 2. Response format -- JSON output following our schema (documented, simple) 3. Health check endpoint -- So we can monitor availability and route around downtime
 What we provide: 1. Integration SDK (Node.js / Python) -- handles auth, escrow interaction, response formatting 2. Testnet environment -- full sandbox with test DZIT for development 3. Escrow contract interface -- your node never handles payments directly; the Polygon smart contract manages custody and release 4. Telegram bot routing -- we handle all user interaction; you just process the service call 5. Documentation & support -- API docs, integration guides, dedicated Telegram support channel
 Integration timeline: Most services can be integrated in 1-2 weeks. We pair you with a dev from our team for the first integration sprint. Hosting options:

- Self-hosted -- Run your node on your own infrastructure (recommended for data-sensitive services)
- 1BZ-hosted -- We run it alongside our existing nodes (we discuss hosting fee in DZIT)

DZIT TOKEN ECONOMICS FOR YOUR NODE

Understanding the token flow:

Token	Role in Your Node
DZIT	Gas/payment token. Users pay in DZIT, you earn in DZIT. Packages..
BZeUSD	Stable settlement. Convert your DZIT to BZeUSD if you want USD-p..
1BZ	Governance. Stake 1BZ to vote on network decisions -- including ..
E2P	Liquidity. Provide DZIT/BZeUSD liquidity and earn E2P rewards. O..

Key point: You're not just a vendor. As a node provider, you're a network participant. You earn governance weight proportional to your node's transaction volume. This means you get a say in protocol decisions that affect your revenue.

GOVERNANCE PARTICIPATION

As a service node provider, you receive:

- 1BZ token allocation based on monthly transaction volume (vesting over 12 months)
- Voting rights on proposals affecting fee structures, new node approvals, and protocol upgrades
- Proposal rights -- submit governance proposals after 90 days of active operation
- Seat in the operator council -- quarterly calls with all node operators and core team

Staking requirement: To maintain voting rights, node providers must stake a minimum of [X] 1BZ tokens. Initial allocation covers this -- no out-of-pocket cost.

WHY BUILD ON BIZNODE INSTEAD OF GOING SOLO?

Going Solo	Building on BizNode
Build your own user acquisition	Instant access to BizNode's Telegram user base
Handle payments, billing, disputes	Escrow contracts handle everything automatically
Market your service from zero	Your service is discoverable inside an existing agent
Build a bot from scratch	We handle the Telegram UX; you focus on your service
Manage infrastructure	Optional self-hosting or 1BZ-hosted
No governance upside	Earn 1BZ governance tokens -- own a piece of the network

ONBOARDING PROCESS

Step	Timeline	Details
1. Proposal Review	Day 0-3	We review your service for network fit and..
2. Technical Scoping	Day 3-7	Joint call to map your API to BizNode's ro..

3. Integration Sprint	Day 7-21	You build the endpoint; we provide SDK + s..

5. Governance Vote	Day 28-35	Existing node operators vote to approve yo..
6. Mainnet Launch	Day 35-42	Your node goes live. DZIT earnings begin.

NEXT STEPS

1. Reply with a brief description of your service and how you'd see it working inside BizNode
2. We schedule a 45-minute scoping call
3. You get testnet access within 48 hours of that call We're building an open network. If your service adds value for our users, we want you in. -- [Founder Name], 1BZ DZIT DAO LLC Telegram: [@handle]

PROPOSAL 4: AFFILIATE / AMBASSADOR PROGRAM

Use when: Recruiting individuals who want to promote 1BZ.BIZ and earn commissions in DZIT.

1BZ.BIZ AMBASSADOR PROGRAM -- Earn DZIT by Growing the Network

THE OPPORTUNITY

1BZ.BIZ is a decentralized business services network with an AI-powered Telegram agent called BizNode. We're early-stage, bootstrapped, and revenue-first. We need people who believe in the product to help spread the word -- and we pay in DZIT for every conversion. This isn't a "share a link and hope" affiliate program. We give you real tools, real tracking, and a tier system that rewards consistent performance with increasing commissions.

HOW IT WORKS

1. You sign up and receive a unique referral link + tracking dashboard
2. You promote 1BZ.BIZ through your channels (Telegram, X, YouTube, Discord, blog, IRL -- whatever works)
3. Someone signs up through your link and purchases a DZIT package (\$10-\$10,000)
4. You earn a commission in DZIT, credited to your wallet within 24 hours of confirmed purchase
5. You level up through tiers as your referral volume grows

COMMISSION STRUCTURE

Base Commission: 15% of every DZIT package purchased by your referrals.

Builder	\$50	\$7.50 in DZIT	\$15.00 in DZIT
Professional	\$200	\$30.00 in DZIT	\$60.00 in DZIT
Enterprise	\$1,000	\$150.00 in DZIT	\$300.00 in DZIT

Whale	\$10,000	\$1,500.00 in DZIT	\$3,000.00 in DZIT

RULES & EXPECTATIONS

Do:

- Promote honestly -- BizNode is a real product with real utility. Let it speak for itself.
- Disclose your affiliate relationship where required by platform rules
- Provide genuine value to your audience (tutorials, demos, reviews)
- Report bugs or user complaints to us -- we fix them fast

Don't:

- Spam. Anywhere. Ever. This gets you permanently removed.
- Make income guarantees or promises about DZIT token price

- Create fake accounts or self-referrals

Violation policy: First offense = warning. Second offense = commission freeze for 30 days. Third offense = permanent removal with forfeiture of unpaid commissions. Earned and paid commissions are never clawed back.

HOW TO SIGN UP

FAQ

Q: Do I need to buy DZIT to become an ambassador? A: No. The program is free to join. However, using BizNode yourself makes you a much more effective promoter. Q: Can I be an ambassador AND a node operator? A: Yes. Many of our best promoters also run nodes. The programs stack -- you earn from both. Q: What if DZIT price changes? A: Your commissions are denominated in DZIT at the time of purchase. You can convert to BZeUSD (stablecoin) immediately if you want to lock in USD value. Q: Is there a minimum payout? A: 50 DZIT minimum per withdrawal. No maximum. Q: Can I recruit other ambassadors? A: Platinum ambassadors earn 5% on their sub-affiliates' sales. We're considering opening this to Gold tier in the future -- governance vote pending. Q: What if I stop promoting? A: No penalty. Your recurring commissions continue as long as your referrals keep purchasing. Your tier may drop based on trailing 30-day activity, but it can always be re-earned.

REAL TALK

We're bootstrapped. We don't have millions in marketing budget. What we have is a working product, a clear value prop, and a founder who ships. If you're the type of person who promotes projects because you genuinely believe in them -- and you want to get paid fairly for it -- this program is for you. The best time to join an ambassador program is before everyone else does. We're at that stage right now. -- [Founder Name], 1BZ DZIT DAO LLC Telegram: [@handle] Web: 1BZ.BIZ
